

INDICATIONS:

- **Chronic renal failure (CRF).**
- **Management of calcium oxalate urolith recurrence in cats with impaired renal function.**
- **Hepatic encephalopathy.**
- **Prevention of recurrence of urolithiasis requiring urine alkalinisation: urate and cystine uroliths.**

CONTRAINDICATIONS:

- **Pregnancy, lactation, growth.**

FEEDING DURATION:

The diet is prescribed for a 6-month minimum period, at the end of which a veterinary check-up must be performed. When diagnosed, 3/4 of the renal mass has been lost and the disease is irreversible; the diet should be maintained for the cat's lifetime.

- Enhanced palatability helps promote spontaneous food intake in cats with renal failure.

- Supplementation in long chain omega-3 fatty acids (esp. EPA-DHA) helps lower glomerular pressure and slow progressive decline in GFR.

- A restricted phosphorus intake is essential to slow down the development of secondary hyperparathyroidism which contributes to progression of the renal failure.

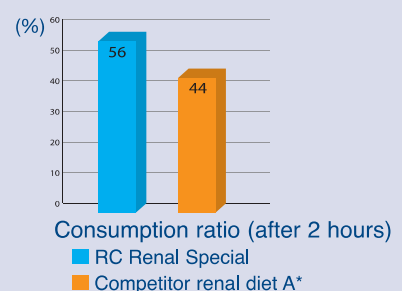

- Increased uraemia may induce the formation of gastric and intestinal mucosal ulcers. The combination of zeolite and FOS helps protect the mucosa.

FURTHER INFORMATION:

Cats with renal failure often show reduced appetite and anorexia. RENAL SPECIAL features enhanced palatability to help ensure adequate caloric/and nutrient intake and promote better owners' compliance to nutritional prescription.

Palatability trial, RC Renal Special

A* is a feline dry competitor diet currently available on the market.

RENAL SPECIAL

RSF 26

FELINE

KEY VALUES:

Protein:	26 %
Fat:	17 %
Carbohydrate:	33.3 %
NFE:	38.2 %
Dietary fibre:	10.2 %
Crude fibre:	5.3 %
Minerals:	6.5 %
Metabolisable energy (C)*:	4 098 kcal/kg
Metabolisable energy (M)**:	3 915 kcal/kg
Omega 6:	3.06 %
Omega 3:	0.77 %
EPA+DHA:	0.42 %
Calcium:	0.86 %
Phosphorus:	0.43 %
Sodium:	0.35 %

Synergistic antioxidant complex:

Vitamin E:	500 mg/kg
Vitamin C:	200 mg/kg
Taurine:	2 100 mg/kg
Lutein:	5 mg/kg

* According to ATWATER's equation

** Energy measured by Royal Canin Research Centre

0.5, 2 and 4 kg bag

Actual size

INGREDIENTS:

Maize flour, dehydrated pork proteins***, rice, animal fats, vegetable fibre, hydrolysed animal proteins, wheat gluten***, maize gluten, minerals, beet pulp, calcium carbonate, fish oil, Fructo-Oligo-Saccharides (FOS), soya oil, DL-methionine, potassium citrate, taurine, L-arginine, L-tryptophan, marigold extract (rich in lutein).

***LIP (Low Indigestible protein) : protein selected for its very high assimilation.

RECOMMENDED DAILY INTAKE:

Cat's weight	thin		normal		overweight	
	grammes	cups	grammes	cups	grammes	cups
2 kg	35	3/8	30	3/8		
3 kg	55	5/8	40	4/8		
4 kg	70	6/8	55	5/8		
5 kg	90	1	70	6/8	55	5/8
6 kg	105	1 1/8	85	7/8	70	6/8
7 kg			100	1 1/8	80	7/8
8 kg			110	1 2/8	90	1
9 kg			125	1 3/8	105	1 1/8
10 kg			140	1 4/8	115	1 2/8
